THE KITTEN COTTAGE RESCUE CENTRE'S VETERINARY CLINIC

DISCHARGE FORM

The Kitten Cottage Rescue Centre's Veterinary Clinic would like to take this opportunity to thank you for taking responsibility to sterilise your cat/kitten.

Important things to remember:

1. Keep your cat/kitten inside for the next 48 hours, as it will be disorientated.
2. Your cat/kitten will be hungry and thirsty, please feed and give water once you are at home.
3. Female cats/kittens will need to have their stitches removed between 7 to 10 days. You can take your cat/kitten to your local Vet or contact The Kitten Cottage Rescue Centre for assistance in removing the stitches.
4. Male cats/kittens do not require stitches.
5. Vomiting is normal after surgery, do not panic.
6. Should you cat not eat by the next morning contact The Kitten Cottage Rescue Centre immediately.
7. Female cats/kittens will have a stomach bandage. Bandage to be removed after 72hours.
8. Do not allow your cat/kitten to pull or over groom the surgical area. If she/he does please purchase an Elizabeth Buster Collar from your local Vet.
9. If your cat/kitten pulls out the stiches contact The Kitten Cottage Rescue Centre immediately.
10. Kindly take note that The Kitten Cottage Rescue Centre shall not be responsible for any third-party vet bills following sterilisation of your cat/kitten.
11. A clear seepage is normal from the surgical area. If the area becomes inflamed or smells unpleasant, please contact The Kitten Cottage Rescue Centre.
12. For emergencies kindly contact The Kitten Cottage Rescue Centre on 082 296 0214.
